MENDOCINO VALLEY SCENES — COUNTY BUILDINGS — MENDOCINO LOGGING AND COAST SCENES

VOL. XXXI. UKIAH, MENDOCINO CO., CAL.: FRIDAY, FEBRUARY 15, 1907. 34

ROUND VALLEY CASE SETTLED

The suit of Mrs Sarah Scott vs Sanford Redwine came up before the superior court last week. The attorney for the defendant asked the court to dismiss the action but their petition was denied, says the Covelo Review.

Last Thursday another phase developed when the plaintiff's attorney asked the court to appoint a guardian for his client. Lem Montague, Will Osborn, Chas Robinson and Mrs Scott were placed on the witness stand and their testimony convinced the court that Mrs Scott was not competent to manage her affairs, so he appointed Chas Robinson her guardian and placed him under $500 bonds.

It was then very clear to see which way the wind was blowing so the same day the defendant and his attorney entered into an agreement with the plaintiff and his attorney to settle the case out of court. Their stipulation provides that the plaintiff is to pay the court expenses, amounting to $60, and when the deed annullment comes up the defendant agrees to allow them to get judgement by default which would make the last deed null and void.

A Prominent Minister Coming

The Rev. George B Smyth D D, assistant secretary of the missionary society of the M E church, will preach both morning and evening at St John's M E Church next Sunday. Dr Smythe is one of the most prominent ministers in the country and is noted for his pulpit ability. He was born and raised in Ireland and became a Methodist preacher very early in life and was sent by his church to China where he became eminently successful both as a preacher and educator. He has a strong personality, is not only humorous in his addresses but eloquent and forcible. His coming to Ukiah will no doubt attract large audiences.

Help The Band Boys

The concert and ball to be given by the Ukiah city band and orchestra on the 22nd promises to be one of the events of the season. The boys are anxious to give their patrons the full value of their money in amusements and they should be well patronized. A band is a necessity to a town and the members of it must undergo many self sacrifices and work for nothing to keep it up. It is only occasionally that they ask any patronage and their appeal should be met liberally. Get your seats early and avoid the rush.

PROCEEDINGS OF SUPERVISORS

The following is the remainder of the minutes of the board of supervisors at their last session which was omitted last week as it came to late for publication.

Prof L W Babcock appearing before the board and showing that the books of the school superinteddnt's office had been improperly kept and that they did not show the correct balances in the different school district funds the board appointed Prof B L Cleland and Mrs L W Babcock to correct and balance the books up to the 7th day of January, 1907.

The board authorized the clerk to notify A Marks that they had no further use for the rooms formerly occupied by the county surveyor.

Looks Good For Willits

George Richardson was down from Willits this week. He reports times lively in Willits and that the outlook for the present summer is the brightest in the history of that town. Six or seven new mills are to be opened there and the Irvine & Muir company are preparing to erect their large new mill in the big basin.

POINT CABRILLO FOR LIGHTHOUSE

The surveyors of the U S Lighthouse Board, who made careful surveys of the Government reserve abutting on Caspar harbor and of Point Cabrillo late last fall, have filed their complete report with the Department. Considerable curiosity was aroused locally at the time the surveys were made as to just where the light would finally be located. The bill which was passed by Congress to provide funds for the erection of the lighthouse called for Point Cabrillo as the place, this spot lying contiguous to and immediately south of the Caspar point. Point Cabrillo has been chosen as the place for the light, says the Beacon.

Congreesman D E McKinlay has informed the Beacon that he lately visited the Lighthouse Department at Washington and talked the situation over with the officials. He was assured that the light would be located on Point Cabrillo and that twenty-three acres of land would be purchased from Dave Gordon for that purpose. Just how soon operations would be begun was not stated. However, it is reasonable to suppose that the matter will be taken up in the spring and the entire work finished by winter.

FOUND DEAD IN A WHEELBARROW

John Kain, an old resident of the county, was found dead Monday night at Fred Frasier's place. He had been complaining of heart trouble for some time and had been making his home with Fred Frasier and doing chores for his board. When found he was laying in a wheel barrow and had evidently started to feed the chickens as a pan of bran was near him. He had been taken ill and sat down in the wheelborrow and expired. Deceased had made his home with Chas Kemp on Pine ridge for years but had gone to the county farm some months ago for treatment afterwards going to live at Frasiers. He had some property and as he was considered incompetent George Lambert had been appointed guardian for him a few weeks ago.

Managers Adopt Plans

The board of managers of the local state hospital have adopted plans and specifications for the erection of a cottage for the care and treatment of female patients. They have also adopted plans and specifications for a steel water tower. The two structures are to cost in the neighborhood of $50,000. A cottage for the treatment of acute cases is also necessary and a bill has been introduced in the legislature for this purpose.

Work Plentiful In Berkeley

George David came up from Berkeley Saturday night and spent Sunday at his ranch. He reports that there is an abundance of work for carpenters in the bay cities if it will only quit raining. He has work engaged for six months ahead at good wages. The weather has been so bad however that since he has been in Berkeley he has only averaged a day and a halfs work a week.

Souvenir Postal Cards

W W Fairbanks, the wellknown Point Arena photographer, favored the office with some handsome souvenir postals this week. They comprise some of the finest coast views and marines and are just the thing to send to friends to remind them that you are in the land of sunshine and plenty. He reports that these souvenir postals are becoming quite popular as they well deserve.

Frank Barker spent Saturday and Sunday in this city with his parents last week. He has returned to the university to resume his studies.

The Ukiah Brewing Co. INCORPORATED Makes Its First Beer

Fifty Thousand Dollars Invested In the Plant that will Make Mendocino Lager Beer--Monster Ice Machine Will Drive Away the Cares of Summer Heat.

The Ukiah Brewing company has completed its plant in the Wagonseller addition and the first beer was put into the cellars this week. By the first of April the brewery will be running in full capacity and will be turning out fifty barrels a day of Mendocino Lager beer, as the brand will be known. All the beer will be aged for at least two months and so it will be nearly that time before any of the product is on the market.

The Ukiah brewing company was incorporated by E Moormeister, brewmaster and general manager, and Frank and Fritz Ott. These gentlemen are thorough and successful business men. Mr Moormeister is a graduate of the famous Royal Weihen-Stephan Brewers academy at Weihen-Stephan, Bavaria, which has given to the world the most famous brewmasters of St Louis, Chicago, Milwaukee and other now world famous beer centers.

Mr Moormeister has also been in active charge of the practical operating department Wickuler Kupper Brauerei at Elberfeld, Germany, which concern is a wellknown exporter of beer to all climates for many years. His experience gained at this brewery will serve him in good stead in building up an export business. In America Mr Moormeister has held an important position with the American Malting company in Chicago and his testimonials in regard to his efficiency are of the highest character. Previous to coming to this city he was engaged in the brewing business in Enterprise, Oregon.

Having disposed of his interests there he was drawn to this locality as an ideal one for a brewery because of its transportation facilities and a climate which is particularly fitted to brewing. Better still, the necessary barley and hops for the manufacture of beer are grown in this valley and they are as good as is to be found any place on earth. Last but not least there is an abundance of pure cold water—the great essential for beer making.

The brewery was started last September and because of the business like method by which its affairs have been managed without hue and cry the people of the community do not realize the amount of money that the structure and the machinery it contains represents. The building and plant cost over $50,000. Not one cent of the money was subscribed locally as the gentlemen interested had ample means and faith in the enterprise. Consequently this brewery means that $50,000 has been brought into this county and invested.

The building is four stories high and occupies a ground space of 26 by 108 feet. An office building is yet to be added and a wash house 70 x 30 feet. The building has eight walls and is 24 inches thick, heavily studded and with a layer of tar paper to prevent the changes of temperature from affecting the beer cellars. The building contains 240,000 feet of lumber. The cellars contain huge 75 barrel vats giving a storage capacity of 1800 barrels of beer. This will be the stock that will be kept constantly on hand to supply customers. As beer is worth about $8 a barrel the value of this stock can be seen.

The machinery is all new and of the latest improved pattern. It is also somewhat expensive, for instance the copper beer cooler, which is in reality thirty-two inch copper pipes laid one on top of each other and over which the beer passes cost $1000, a Kiefer filter cost $1500. Other pieces are in proportion. Expense however was not considered in the construction of this brewery as Mr Moormeister states that the object in view was to get a perfect plant. Good machinery is expensive but it pays in the long run.

One of the inreresting things in connection with the brewery is the improved sixteen ton ice machine which turns out the crystal ice—a solid block of frozen water with lasting qualities much superior to the ordinary run of ice. The important part of this to the public is that Mr Moormeister states that ice will be delivered to any part of town and that he will be able to offer it at very reasonable rates. The capacity of this machine will make an ice famine in this city in the summer months an impossibility in the future.

The important part of this splendid machine to the brewers is that it furnishes the cold brine for the circulatory cooling system for the cellars. The equivalent of ten tons of ice will be required every day to keep the beer cellars at the desired temperature and there will be ice on the pipes in the hottest weather. The temperature of the cellars must not vary whether the weather outside be hot or cold.

The Ukiah Brewing company will be wholesale brewers and to aid their shipping facilities have their own side track running to the brewery. They will supply not only the local market but will ship to points all along the line of the local railroad and to San Francisco. Mr Moormeisters repntation as a brewer leaves no doubt that Mendocino lager beer will become the popular beverage and it will evidently only be a short time until outside brands of beer will be strangers to the local market. Mr Moormeisters success in other places insures the success of the Ukiah Brewing company.

Ban Placed On Awnings

The board of city trustees instructed the city attorney, A J Thatcher, to prepare ordinances providing for the removal of all signs that overhang the sidewalk. Another is to raise all the wooden awnings that project over the sidewalks. The action was probably hastened by the falling of a portion of the awning in front of the grocery store of Lucas Bros last week. It was merely luck that some one was not injured by it

Kit Briggs has recovered from his injuries sufficiently to be around and is visiting Auditor and Mrs C W Mathews of this city.

Business Proptery Sold

Robert McKinley has purchased the southwest corner of the block bounded by Church and State street from the Gobbi estate. The Lot is a good location and has a frontage of sixty feet on State street. The price is reported to have been about $70 a foot. Mr McKinley intends building a modern brick building in the near future and the unsightly Japanese wash-house which now adorns the corner will soon be a thing of the past.

Miss Hattie Hoadley came up from Martinez Monday night and after spending a few days with the Holbrooks and Wilsons left for her school near Laytonville.

LE GRAND MORSE PASSES AWAY

Attorney T L Carothers received a telegram last Friday morning which stated that Le Grande Morse had passed away at Santa Cruz Wednesday night. He was wellknown and respected throughout this county and leaves many friends to deplore his passing. The following sketch is taken from the Point Arena Record:

A telephone message was received yesterday conveying the sad intelligence that Le Grande Morse had passed away at Santa Cruz Wednesday night. For many years deceased was a business man of Point Arena, and by integrity and fair dealing won the confidence and esteem of all. Mr Morse has been in the grip of tuberculosis for over a year, and although every effort was made to stay the ravages of the disease it finally conquered, and a good man has gone to his reward.

The remains will be brought to Point Arena to be laid away beside his father, mother and brother in Evergreen cemetary, arriving on Sunday's steamer, and the funeral will take place at 2:30 Monday afternoon.

Le Grande Morse was an honored member of Garcia Lodge No 240, I O O F, which will take charge of the funeral. He was a native of the United States and 64 years of age.

WILD PIGEONS VISIT HOSPITAL

The pigeon hunters have been wrestling with a perplexing question for the past few days. The wily birds have discovered that it is against the rules and regulations of the Mendocino State Hospital to discharge firearms on the grounds of that institution and have taken advantage of the fact by making that their feeding ground. Every morning the majestic oaks in front of the hospital are filled with pigeons and they are so tame that it is impossible to scare them away. This was discovered by some of the hunters who thought they could drive the birds out of the grounds by walking up to the trees and hollowering at them but there was nothing doing.

Basket Ball Game

Last Saturday the Junior girls played the sophomores a game of basket ball, winning by a score of 16 to 14. The game was splendid, Rena Laughlin and Daisy Renick kept things going in the center for the sophomores while Hazel Dutton and Jennie Yates starr'd for the juniors, small, but O my! The sophomores worked well but in spite of that the junior goals were invincible all, however doing splendid work. Lineup as follows: Goals, juniors, Jennie Yates captain, and Hazel Dutton; sophomores, Estelle Sneed, Agnes Kinlock; centers, juniors, Winnie Atkinson, Neta York; sophomores, Rena Laughlin captain, Daisy Renick; guards, juniors, Edith McNab, Sadie Patton; sophomores, Marjorie Thomas, Marjorie Case, first half and Vivian Edwards, second half.

Look Out For Him

The banks have received circulars warning them against O T Mott who is traveling over the country and attempting to secure loans on the stock certificates of the Fort Kent Trust company. In several instances he has been successful. Cashier Tracy of the Savings bank states that the gentleman was in this city a couple of weeks ago and made application to borrow but was promptly turned down. He is a middle aged gentleman and said to be dressed for the part of a well-to-do farmer.

George P Anderson of the Mendocino County Abstract Bureau has recently been appointed a notary public and has announced the the fact to the public by a handsome brass sign.

AFTER THIRTY-THREE YEARS

One of the most enjoyoble parties of the year was the surprise given Mr and Mrs C Hofman by the members of the Cornelia Rebekah lodge Tuesday night. At eight thirty the merry makers had gathered at the residence of Mr and Mrs A O Carpenter on south State street and the pilgrimage to the house of the Hofmans was made from there. The occasion was the thirty-third anniversayy of the wedding of this highly respected couple.

The surprise was complete. Mrs Hofman was caught reading one of the latest novels of the day, no doubt a love story and the genial Charles was perusing his daily paper when the merry makers burst into the room with their arms laden with cakes and other edibles. The evening was one of the pleasantest spent in many a day by all who were fortunate enough to be present. Games and conversation occupied the members of the assemblage until midnight.

The dining room was then thrown open and the visitors were in turn surprised by the splendid collation that greeted them. For some little time the proposition of filling the inner man occupied their attention. Afterwards music and dancing whiled away the time and the hours were getting larger before the happy throng decided to depart voting the evenings work a grand success and voting the bride and groom and their children ideal hosts.

It would hardly do to pass the affair without mentioning the wedding ceremony performed by Judge Horton assisted by several others. The ceremony was unique and very binding but the happy couple answered the extraordinary questions in the affirmative in a manner that showed that they were satisfied that marriage was no failure even after a trial of a quarter of a century. The happy bride and groom left Wednesday morning for their honeymoon trip in Los Angeles and the southern part of the state.

The following were present: Mr and Mrs George Bradley, George Rhodes, Frank, Henry Meyer, W O White, R E Donohoe, A E Dickinson, A N Evans, Hale McCowen, R R Lucas, L Edwards, John Butts; Mrs Emily Horton, E W Chalfant, Dolly Edwards, Helen M Carpenter, Cornelia White, Celia Lobree; Misses Mabel Busch, Della Butts, Ruth Donohoe, Clara M Rowe, Gladus Frank, Vivian Edwards, Priscilla White, Sarah Hofman; Messrs W W Polkman, Ben Hofman, Louie Hofman, Martin Edwards, G F Bradley jr; Master Floyd Lobree.

FRANK WILLARD WILL BE HUNG

Probably the most popular verdict rendered by the supreme court with the residents of this county was that of confirming the sentence of Frank Willard who was sentenced to be hung for the murder of Sheriff Smith. When clerk of the Supreme Court Caughey telephoned up last Friday morning that the judgment had been sustained everyone was elated and the news lost no time in getting in general circulation. As thirty days must elapse before decisions of the supreme court become final it will probably be five or six weeks before Willard is returned to this city on the order of Judge White for the death sentence.

Returns On Business

Fred Gowell made a flying trip to this city last week to look after business interests. Fred is kept pretty busy as he is clerk for the Public Health and Quarantine committee and the Committee on State Hospitals for the assembly. He reports that there is plenty of work for the attaches who are willing to work. Some however are not as industrious as Fred,

NEW STOCK OF SPRING HATS

for Men and Boys. New Telescope shape Pearl, Steel, Gray and other desirable colors.

Also Alpines' Fedoras, Cowboys, Derbys, and all other good shapes. Also a good assortment of

STETSON HATS.

The quality of the goods we show this season is unsurpassed and we are fortunate in being able to offer such good values.

SPRING GOODS IS COMING IN

Every day notes the arrival of some of the beautiful creations disguised to adorn the fair forms of the feminine population and the stalwart figures of the sterner sex.

We are now showing a new invoice of those useful as well as attractive fabrics GINGHAMS, PARCELS and Cotton Plaids as well as a few of the early spring

Light Weight Novelties

Many Novelties in Trimmings and Fancy Articles are also arriving to help make shopping a double pleasure on these nice days.

Clothing

The event of particular note is the introduction to the people of Ukiah of the first class line of clothing made by

Alfred Benjamin & Co.

These goods require no talking. Their good points are self evident, fit finish and material always perfect.

Our other good makes will also be still kept up so that we will be able to furnish good reliable goods at prices to suit all requirements.

Shoes

Bigger assortment than ever before.

C. Hofman

PRESIDENT TALKS ABOUT PARENTS

ROOSEVELT WRITES LETTER TO PRESIDENT OF MOTHERS' ASSEMBLY IN SYRACUSE

Advice to Fathers and Mothers as to How to Conduct Home and Raise Their Children.

Syracuse, N. Y., Feb. 12.—Mrs. E. H. Merrill of this city president of the New York State Mothers' Assembly, i sin receipt of a letter from President Roosevelt, in which he defined the place of the father and mother in the home. The letter was in response to one asking questions from the Council of Mothers recently, held at Newburg, and the State convention, to be held in the fall. The President says:

"For one of our topics, how would it do to speak of the place of the father in the home? Now and then people forget that exactly as the mother must help the breadwinner by being a good housewife, so the father in his turn, if he is worth his salt, must in every way back up the mother in helping bringing up the children.

After all, the prime duties are elemental, and no amount of cultivation, no amount of force and sagacity, will make the average man a good citizen unless he be a good husband and father and unless he is a successful breadwinner, is tender and considerate with his wife and both loving and wise (for to be loving and weak and foolish is utterly ruinous) in dealing with the children.

I think it a crime for the woman to shirk her primary duties—to shirk from being a good wife and mother. Of course the woman should have the same right as the man to train her mind, to better herself, and occasionally a woman can, and ought to follow some special vocation in addition to (never in substitution for) her home work.

But just as the highest work for the normal man is work for his wife and children, so the highest work for normal woman is the work of the home—where, heaven knows, the work is ample enough.

But I also feel she can do the best work in her home if she has healthy outside interests and occupation, in addition, and I most firmly believe that she cannot do her full duty by her husband if she occupies a merely servile attitude toward him, or submits to ill treatment, and that she is quite as bad a mother if weak and foolish as if hard and unloving.

BLOSSOMS BUT NO FRUIT.

Burbank to Be Asked to Investigate Freak of Nature.

Santa Rosa, Cal., Feb. 11.—Over on the Van der Mark place, in Western Sonoma, is a fifteen-acre orchard that has had but one crop of apples, and every year since then, although the trees are filled with blossoms, it has not borne a single apple. The accuracy of this statement is vouched for by people living in the district and Superintendent I. J. Button, at present in this city attending a meeting of the Supervisors.

Luther Burbank will be asked for an opinion regarding the cause of the freak of nature.

LIVES LOST IN OREGON'S STORM.

Town and Countryside Devasted by Floods in Columbia Basin.

Arlington, Ore., Feb. 11.—Reports have been received here of the worst storm since the Pacific Northwest was settled. Livestock is still safe, but country roads and bridges are damaged beyond description. There is no estimate of the loss yet.

Every town in the Columbia River basin has suffered severe loss. The main street in Arlington is washed away. Several buildings went with the flood. The water has now subsided, indicating good weather.

Hold Russian Red Cross Property.

Chefoo, Feb. 8.—The Japanese authorities, to whom the Russian Red Cross Society intrusted its property after the capitulation of Port Arthur in January, 1905, refuse to restore it. The property is valued at about 1,000,000 rubles ($500,000). The Japanese refuse to regard the Red Cross Society as a private institution.

OUR NAVY IS BEHIND TIMES

OTHER POWERS ARE BUILDING BIGGER AND BETTER BATTLESHIPS.

Senator Hale Presents a Remarkable Comparative Statement of Naval Strength to the Senate.

Washington, Feb. 12.—A remarkable comparative statement of naval strength in respect to new battleships was submitted to the Senate yesterday by Senator Hale. It was prepared by the Navy Department, and it makes the United States look like a pigmy in comparison with certain other powers.

The comparison shows that the biggest ships being built or projected are four 21,000 tons each by Russia. Next comes Japan with one of 19,000 tons and one of 19,200. Germany has provided for four 18,000-ton battleships, and France for six of 18,350 tons each and 19-knot speed. Great Britain's Dreadnaught of 17,900 tons is smaller than vessels building or projected by Russia, Japan, Germany and France. Great Britain will build three more of 18,400 tons, however, to make 21 knots or more.

The South Carolina, of the latest type designed for the United States navy, having 18½ knots speed, is small and slow in comparison. This statement from Senator Hale is believed to point to authorization of an additional big battleship aside from the one authorized last year.

VATICAN SCORES A VICTORY

French Government Yields to Objections Made by the Pope.

Paris, Feb. 12.—A further concession to the church in regard to the contracts for the lease of churches is indicated by the Government through an unofficial announcement that the period of contracts may be definitely fixed at eighteen years, instead of expiring with the term of the priest in charge of the parish.

This will remove one of the principal objections raised by the Vatican to the contract proposition.

Queen Lil Wants a Settlement.

Washington, Feb. 12.—Vice-President Fairbanks today laid before the Senate for Liliuokalani, former Queen of the Hawaiian Islands, a second addition to the petition filed by her in 1905 praying for the settlement of her claim for sovereign lands taken from her at the time of the acquisition of the islands by the United States. She asks, in this addition of 150 typewritten pages, that action be taken at the present session of Congress..

Edgar Sutro Secures a Divorce.

St. Helens, Ore., Feb. 12.—The ill-fated mismarriage of Edgar E. Sutro, which took place at Cape Town, South Africa, June 21, 1890, has been terminated by a divorce granted the son of Adolph Sutro of San Francisco, from Henrietta L. Sutro, on the ground of desertion. By the property settlement Mrs. Sutro is to receive 20 per cent of her husband's inheritance of one-sixth of his dead father's estate.

Mikado Orders Manchuria Evacuated

St. Petersburg, Feb. 12.—Mr. Motono, the Japanese Ambassador, has notified the Foreign Office that the Mikado has ordered the immediate evacuation of Manchuria. The Minister says this is done in order to restore the normal state of affairs in Manchuria and as showing a desire to resume complete friendly relations with Russia. Only sufficient troops will be left to guard the railway.

State Senator in Divorce Suit.

Bakersfield, Cal., Feb. 12.—A sensation was created here when it became known that Clarence E. Young, a prominent resident and an Oakland oil broker, had filed a suit for divorce from Mrs. Jessie Young, alleging statutory grounds and naming Charles Greenwell, State Senator from Santa Barbara. The papers were filed in the Superior Court yesterday.

Up Against It.

"Snobson says he'd rather be alone than in unpleasant company."

"But the worst of his case is, he can't escape even then!"—Detroit Free Press.

C A Bernhard has sale a few very choice White Plymounth Rock cockerels 11 months old, well grown, in good condition and first class in every way. The Fishel strain. Price about the same as common stock. Can be seen at 515 Walnut Ave. tf

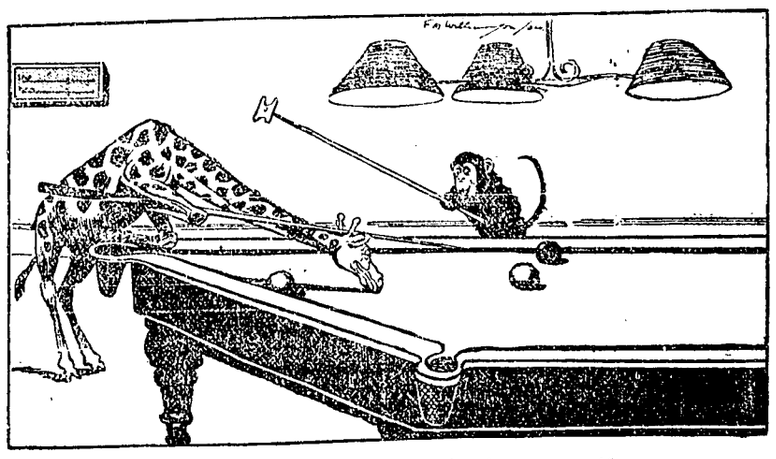
Allen Davidson and Henry Muir represented Willits in town this week.

Mrs A J Thatcher took her daughter Muriel to San Francisco for treatment Attorney Thatcher reports that he received a letter this week to the effect that an operation would not be necessary much to the relief of the many friends of the family. Miss Muriel has been suffering with her ears for some time past.

Major Fugett returned Wednesday from a visit to San Francisco.

A musical recital will be given as a benefit for Dr Moore and family at York & Clelands hall on March 1st. This is an entertainment in which everyone should be interested and to which a liberal patronage should be given. Seats on sale Feb 21 at York & Clelands Feb 21st at 50 cents.

The Longest Reach.



Giraffe, he has a lengthy neck, and knowing how to use it
He wins the game—'twould be a shame for such a sage to lose it.
The lively merchant's head is long; he captures all the prizes
Because he knows the game and shows his sense—HE ADVERTISES.

LETTER FROM MASHINGTON

WASHINGTON, Feb 8th—As to the school questioh itself, it is pretty generally conceded that San Francisco has acted within her right, and that the treaty with Japan can not be construed to abrogate the state law. No less a person than the Hon. Richard Olney of Boston, at one time secretary of the state, and acknowledged to be one of the soundest constitutional lawyers in the country, is very decided in his opinion that there can be no legal interference with the state on account of the action of the San Francisco school board.

The senate pension bill has been finally passed, and veterans of the Mexican and Civil wars will now be able to secure pensions on the score of age alone. It is estimated that should all veterans take advantage of the act to secure pensions or have those already granted increased, not more than $6,000,000 a year will be necessary. As there are very many Mexican and civil war veterans in California the text of the bill is here given, as follows:

Any person who served ninety days or more in the military or naval service of the United States during the late civil war, or sixty days in the war with Mexico, and who have been honorably discharged therefrom and who has reached the age of sixty-two years or over, shall, upon making proof of such facts according to such rules and regulations as the secretary of the interior may provide, be placed upon the pension roll and be entitled to receive a pension as follows:

In case such person has reached the age of sixty-two years, $12 per month; seventy years, $15 per month; seventy-five years or over, $30 per month, and such pensions shall commence from the date of the filing of the application in the bureau of pensions after the passage and approval of this act;

Provided, that pensioners who are sixty-two years of age or over and who are now receiving pensions under existing laws, or whose claims are pending in the bureau of pensions, may, by application to the commissioner of pensions, in such form as he may perscribe, receive the benefits of this act; and nothing herein contained shall prevent any pensioner or person entitled to a pension from prosecuting his claim and receiving a pension under any other general or special act;

Provided further, that no person who is now receiving or shall hereafter receive a greater pension under any general or special law than he would be entitled to receive under the provisions herein shall be pensionable under this act.

That rank in the service shall not be considered in applications filed hereunder.

That no pension attorney, claim agent or other person shall be entitled to receive any compensation for services rendered in presenting any claim to the bureau of pensions, or securing any pension under this act.

The Indian appropriation bill contains several items of interest to California, as follows: For the Mission indians, $5,000; for the Northern Indians, $10,000; for the support and education of four hundred Indian pupils at the Sherman institute, $3,750; for superintendent, $2,250; for repairs, water and etc, $10,500; for concreting reservoir $3,000; for incidental expenses of the indian service in California and support of indians in Round valley, Hoppa valley, and Tule river agencies, $4,000; pay of employees as agencies, $7,000; for payment to indians of the Round valley indian reservation $503 for 402 acres of land erraneously entered by homestead and other claimants while they were a part of the reservation.

There will be a grand benefit given for Dr Moore and family at York and Cleland's hall March 1st. Some of Ukiah's best talent have been secured and the evening promises to be one of amusement as well as helping in a most worthy cause.

The benefit for Dr Moore and family will be given at York & Clelands hall, March 1st. Remember the date and help in a good cause. Seats on sale Feb 21st at York & Clelands, 50 cents.

Carl Clow of Philo was shot in the foot last week while hunting. The injury was more painful than serious and at the last reports is the young nimrod is doing as well as could be expected.

ILLEGAL FENCE ON GOV'T. LAND

The following circular regarding the illegal fencing of public lands has been received from Secretary of the Interior Hitchcock and is the order directed to the commissioner of the general land office:

Referring to the circular of instructions to special agents of your office, approved by me on Jannary 29, 1904, relative to their duties under the act of Febuary 25, 1885 [23 Stat., 321], entitled "An act to prevent unlawful occupancy of the public lands," you are advised that said circular is hereby amended and modified as follows:

Strike out from said circular paragraphs 5 and 6, and insert in lieu thereof the following:

It shall be the duty of the special agent on receipt of any charge or complaint or upon information being acquired by him from any source, that an unlawful inclosure is being maintained by any person or persons, association, or corporation, to at once proceed to secure sufficient data, including a description of the lands inclosed, with reasonable certainty, not neccessarily by metes and bounds, nor by Governmental subdivisions of surveyed land, but only so that the inclosure may be identified and the person or persons guilty of the violation, as nearly as may be, and by description if the name can not, on reasonable inquiry, be ascertained, and to at once submit such case, with the data thus obtained, to the United States attorney for prosecution.

It shall be the duty of the special agent, and he shall be so instructed, to be alert and vigilant to detect the existence of unlawful inclosures in his district and to proceed in accordance therewith as herinabove directed, and that he is not to coustrue his duties as requiring that, before proceeding in the matter of an unlawful inclosure, there must first be filed with him a formal complaint by some person or persons acquainted with the facts, but it shall be his duty, as hereinabove stated, to take the initiative himself.

In this connection you are further instructed, by direction of the president, to at once notify all of the special agents and receivers and registers of local land offices throughout the Uuited States, and to give the widest publicity thereto that the provisions of said act of February 25, 1885, for the summary destruction of inclosures and obstructions existing in violation of said act will be rigidly enforced on and after April 1, 1907.

Cosgrove Doing Well

Much to the satisfaction of the many friends of Mine Host Cosgrove of the Cecille he has been successfully operated on and is doing well. Jack Hart and several of his friends received postals from him yesterday which is an indication that he is feeling as well as can be expected.

Notice To Cattlemen

I will spey cattle from March 1st to May 15th any kind from two weeks old up at 50cents per head for bunches under 40 reduced rates for larger numbers. L Edwards, Ukiah

For sale—20 head of mixed cattle consisting of fresh milch cows, heifers, and some fine steers. Good stock cattle all young. Address J W S,

Our Correspondents

PHILO, February 10, 1907—It seems as though "Mother Spring" has put in her appearance at last as the surrounding hills are covered in a nice verdure mantle, and "Old Sol" is sending forth his rays with all his might; of course the heat is noticed more owing to the recent cold snap.

James Hanen of this place, went to Ukiah last Saturday, to get his grape cutting which he ordered last fall. Jim is a very enthusiastic fruit man and vineyardist. We wish him much success in the vine industry, because sooner or later, our neighboring foothills will be paying a large revenue from the grape vine.

A social dance was given at Johnson's hall last Saturday evening, quite a number of our young people tripped the light fantastic toe until a late hour.

Don Vanzandt is suffering from a severe attack of measles.

J W Peterson is driving stage for Ledford Bros, on the Greenwood line and E Estil is driving for H Dilling between this city and Wendling.

The Wendling mill has shut down for repairs for a couple of weeks and several of the boys are visiting friends here and in Boonville.

C J Ruddock and wife had business in Boonville last Saturday.

Frank Ornbaum of Yorkville has been spending a few days in Philo renewing old acpuaintances also to attend the dance, he reports everything flourishing in that section.

Frank Brown met with quite a painful accident a few days ago while pruning his orchard, he fell from a ladder injuring his right leg.

Your correspondent was well pleased with your editorial of last week concerning the mail order business. While we like to see the community build up and all of our county institutions prosperous also our bridges and public thoroughfares in condition, how can we expect it when you send your money to New York or Chicago. A good many people say, "well our merchants wont sell as cheap as the money order houses do of course they dont stop to look at the freight and express charges also the time they have to wait for their goods, and one third of the time the goods do not give satisfaction after do arrive, and some of these people who are sending away for goods, whenever they want goods on credit, the home merchant is always willing to accomadate him and carry him through the hard part of the year when money is scarce and then when these people get a little cash they will send it to New York or Chicago, instead of giving it to the man who has helped him, and on the other hand, the home merchant has it in his power to make it agreeable for the small consumer by paying them a liberal price for their produce, and sharing their profits with the trading public, by reasonable prices etc. What we want and must have to build up a community is a neighbor hood that will work in unison. Let the good work and the good feeling among us all be continued.

MARS.

CHANDALERIA, Cal. Feb. 12th—Tona Regla has returned to work after being at his ranch for some time.

A B Hitchcock who has been the faithful night-watch on the Candelaria has returned to take up his duties again.

Elmer Waterhouse of the firm of Burns & Waterhouse visied here last Monday.

Four fine thorough-bred colts have been foaled on the ranch this spring.

BLOOMGLITZERS DREAM

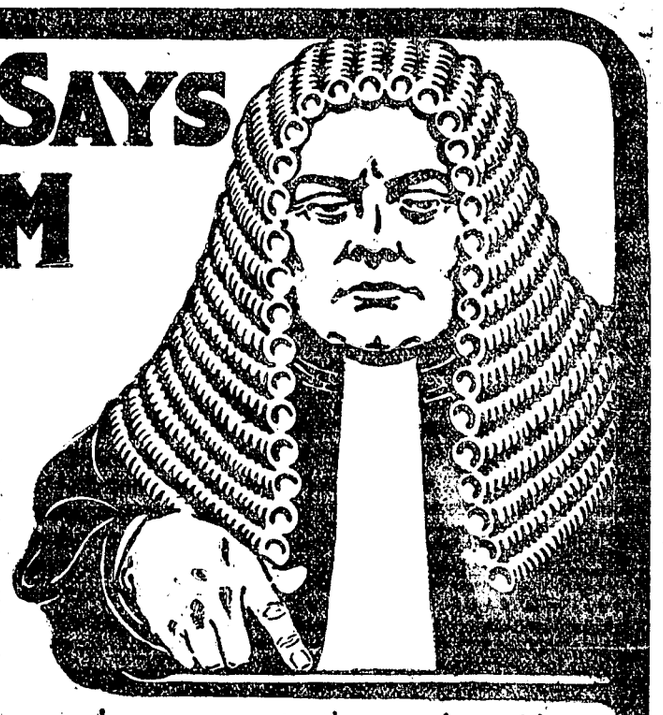
I hat von tream the other night ven
I vas very dreary
I treamed so very mooch apout dat
old farm Candelaria,
I treamed so very mooch about the
men I never knew
And someting all apout the men vat
sometings never do.
Now on that very night I treamed it
vas so very clear
I treamed dat Morris Powers vas
getting full of peer,
I dreamed dat Herbert Porter vas
rolling great big logs
I treamed dat old John Christie vas
driving horses fine.
I treamed dat little Tony vas always
vay pehind.
I treamed dat old Bob Stutsman four
horses could not trive
And dat little Dago Melive did not
know he vas alife.
I treamed dot old John Stutsman
such bother he did make
And dat little Billy Sagerty vas death
to pie and cake.
I treamed dat Mrs Porter no goot
could roast her meat.
And dat she couldn't make de poodings dat vas always goot to eat
How de night I hat dat awful tream
I heaved an awful sigh
For ven I gets von times a vake I
finds it all a lie,
And now apout Frank Gorden I did
not tream at all
And may be sometimes I treams
again
And treams apout them all.

HANS BLOOMGLITZER.

Sacred Concert

The Presbyterian church will give a sacred concert next Sunday Feb 17th, at 7:30 o'clock. All are welcome. Following is the program: Now The Day Is Over, (Barnby) Ladies Choral; God So Loved The World, (Stainer) Choir; The Heavenly Song, Baritone Solo, R H Douglass; Shades of Eve Are Falling, (Dudley Buck) Ladies Choral; Through the Gate, Soprano Solo, Mrs E Beilby; Faith, Hope & Love, (Shelley) Ladies Trio; Angus Dei, (Concone's Mass in F) Choir; Lost Chord, (Sulivan) Ladies Choral

ENGLAND SAYS NO ALUM IN FOOD



In England and France the Sale of Alum Baking Powder is prohibited by law because of the injurious effects that follow its use.

The law in the District of Columbia also prohibits Alum in food.

You may live where as yet you have no protection against Alum The only *sure protection* against Alum in your Baking Powder is to

Say plainly—

ROYAL BAKING POWDER

ROYAL is made from Absolutely pure Cream of Tartar,—a pure Grape product. Aids digestion—adds to the healthfulness of food.

SLOW WORK ON PANAMA CANAL

POULTNEY BIGELOW RETURNS WITH NEW ATTACK ON THE PRESIDENT.

Asserts That Roosevelt Was Fooled as to the Way the Dirt Was Flying.

New York, Feb. 11.—Poultney Bigelow, the American writer, was among the passengers returning on the steamer Amerika. He signaled his return after an absence of a few weeks by firing a broadside at Theodore Roosevelt and the part the President has played in exploiting the Panama canal.

"President Roosevelt has given it out," he said, "that American workmen have lowered the level of the canal sixty-five feet at Culebra cut. That is far from the truth. The fact is they have not lowered it a single inch at that point. The President is deceiving the American public and American engineers. He seems to be impressed with the idea that everything he does and says is great. Anybody who has the courage to disagree with him is promptly catalogued as a liar. I admire Mr. Roosevelt personally, but in his capacity as a public official I as an American citizen have a perfect right to criticise him and his acts, just as I am at liberty to do in the case of any other official.

"During the last six years that the French worked on the canal they took out more dirt proportionately than the Americans have done so far. The trouble with Mr. Roosevelt is that he allowed people down there to stuff him with a fiction about how dirt was flying.

"As for the so-called Taft reservoir at Colon, that is a pure fake. There is just as much yellow fever and smallpox there now, too, as ever, despite the glowing reports to the contrary."

Stevens Will Not Resign.

New York, Feb. 11.—A Panama dispatch states that Chief Engineer Stevens makes emphatic denial of the report that he has said that he would resign if the digging of the canal was let to contractors. Stevens, the dispatch declares, has in the past said he favored contracting for the canal work, and his latest statement shows that he is still of that opinion.

BELLIGERENT WORDS OF CUBAN

Leader Declares He Has Contempt for Americans.

New York, Feb. 11.—General Loynaz del Castillo, according to a Havana dispatch, at the meeting of the Liberal party, held Saturday night to protest against increasing the rural guard, said in a speech: "Every time I see an American I have a contempt for him. I cannot bear to look at the Stars and Stripes waving unjustly over the Cubans. If, some day, Cuba is to fight, it will be with Americans. Not until then will I accept the chieftaincy of the rural guard."

NO CARS FOR ORANGES.

Packing Houses at Redlands Are Crowded With Fruit.

Redlands, Cal., Feb. 11.—The situation of the orange growers of this section is becoming critical on account of the car shortage which has existed for a week past. One house which asked for thirteen cars received two. No cars have been brought into Redlands for a week by the Southern Pacific Company, although the usual supply at this season is from thirty to forty cars per day. The packing houses are crowded with fruit.

The total shipment of 839 cars for the season is over 300 cars short of last year's record to date.

$500,000 For the Oakland Harbor.

Washington, Feb. 8.—At the request of Representative Knowland, Chairman Burton of the Rivers and Harbors Committee changed the provisions of the bill so that $500,000 will be immediately available for the improvement of the Oakland harbor. The department has an unexpended balance of $189,000 and Knowland succeeded in having this increased to $500,000

Zion Appeals for Aid.

Geneva, Feb. 8.—A circular has been received by the Swiss creditors of Zion City, asking their aid in the formation of a company to carry on the affairs of the city. The Swiss interest in Zion was prompted by Gladstone Dowie when he was here wooing Mile Hofer, the Swiss heiress. Investments aggregating a considerable

Bliss Native Herbs

THIS famous household remedy is not a "patent medicine" in any sense—but a delightful combination of roots, herbs and barks such as our grand parents used for Rheumatism, Indigestion, Torpid Liver, Blood Diseases and a run down system. Its simple ingredients are as harmless as milk. It contains no minerals, no alcohol, no poison of any kind. Bliss Native Herbs Tablets are free from coating and begin their healing work as soon as swallowed. Many people in this locality have used them. Many more testify in our Almanac, to be had free of cost. Each box contains 200 tablets for $1.00 and a printed Guarantee to cure or refund the money. The medicine is not sold in drug-stores, but only by

ORDER TO SHOW CAUSE

IN THE SUPERIOR COURT OF THE STATE OF California in and for the County of Mendocino.

In the matter of the estate of John P. Hoffman, Deceased.

J. Manley Sanford, administrator, and Jane B. Hoffman, administratrix of the estate of John P. Hoffman, deceased, having presented to the above entitled court their verified petition praying for an order authorizing them, as such administrator and administratrix, to sell at public or private sale as they shall deem most beneficial to said estate certain of the real property of the said estate described as follows, to wit: A part of lot twenty-nine (29) of Healey's survey and map of Yokayo Rancho, commencing at the southwest corner of the tract of land conveyed by A. D. Dean and Annie E. Dean, his wife, to J. R. Downen by deed bearing date February 29, 1888, and recorded March 1, 1888, in Book 43 of deeds at page 187, records of Mendocino County, thence running along the center of the county road S. 80 degrees, 45 minutes W 5 chains; thence N 17 7 minutes W and parallel with the westerly line of said Downen tract a distance of 10 chains; thence N 80 degrees, 45 minutes, E 5 chains to the westerly line of said Downen tract; thence S 17 degrees, 7 minutes E along said westerly line of said Downen tract to the place beginning Together with the appurtenances.

And it appearing to the court from such petition that it is necessary and, also, that it would be for the advantage, benefit and best interests of the estate and those interested therein to sell the whole of the above described realestate for the purpose of paying the expenses and charges of administration.

NOW, THEREFORE, IT IS HEREBY ORDERED that all persons interested in the said estate be, and they are hereby, directed to appear before the above entitled Court on Monday, the 11th day of February, 1907, at 10 o'clock A. M. of that day, at the courtroom of the said Court in the courthouse at the Town of Ukiah City, County and State aforesaid, to show cause why an order should not be granted to said administrator and administratrix for the sale of the said realestate and

IT IS HEREBY FURTHER ORDERED that a copy of this order be published once a week for four successive weeks before the time hereby appointed for hearing the said petition in the "Republican Press" a newspaper printed and published in the said County and state.

Dated January 3, 1907.

J. Q. WHITE, Judge.

MANNON & MANNON, Attorneys for estate.

The Jar of Coughing

Hammer blows, steadily applied, break the hardest rock. Coughing, day after day, jars and tears the throat and lungs until the healthy tissues give way. Ayer's Cherry Pectoral stops the coughing, and heals the torn membranes.

Attempt to Blow Up Witte's Family.

London, Feb. 12.—A special dispatch from St. Petersburg says that an infernal machine was discovered accidentally last night in a chimney of the house occupied by Count Witte, the former premier. The machine was set to explode after the family had retired.

Crude Oil Advances One Cent.

Independence, Kas., Feb. 12.—The price of mid-continent crude oil was advanced one cent yesterday for all grades, making the highest price now 40 cents and the lowest 27 cents.

Electric Car Catches Fire.

San Francisco, Feb. 12.—An electric car on the Sutter-street line of this city caught fire without warning yesterday while crowded with passengers. A number of people were injured, but none seriously. The entire top of the car was burned off. It is supposed the fire originated from an exploding fuse.

The Wrists.

In spite of the fact that doctors always take the pulse of a patient from the wrist few persons know what important parts of the body the wrists are and how much may be accomplished by treatment of them. When one has fainted water should be applied to the wrists as freely as to the face and temples. In cases of severe illness doctors frequently order the wrists to be bathed with milk and with beef tea. Athletes learn that the wrists must be kept cool in summer and warm in winter. You all know the relief experienced from removing a tight glove, especially when you are overheated. The relief comes not from the hands being uncovered, but from the wrists being unconfined and kept cool.

Incomes In Great Britain.

If one is earning an income of £1,000 a year he is among the financial "upper ten thousand" in the United Kingdom—in fact, there are not 9,000 (according to the income tax records) who are as well or better off than £1,000 a year. All the persons in Great Britain and Ireland who have an income of £10,000 a year and over could stand comfortably in a fairly large drawing room twenty-one feet square, while all who have incomes of £1,000 or over could be accommodated in a back garden thirty yards wide and sixty yards in length.—London Standard.

Atmospheric and Water Pressure.

The earth's surface is the plane of demarcation for atmospheric and water pressure. The barometer indicates increased pressure as we go down in mines and decreased pressure in ascending in the air. Water also increases in pressure as directly as the distance beneath the surface of the sea. The atmosphere has no known difference in composition at the greatest heights observed. It is its lightness or rarity that affects the lungs at great heights.

The Usual Way.

"What's the cause of the coolness between the Bilkins and the Pilkins families?"

"Young Bilkins became engaged to one of the Pilkins girls."

"Yes."

"And now each family thinks its offspring is getting all the worst of it."—London Lady.

The Peril of It.

A lady at whose house Leigh Hunt was dining solicitously said to him at dessert:

"Don't you ever venture on an orange?"

"I should be delighted to do so, my dear madam," the poet replied, "but I'm so afraid I should tumble off."

His Previous Existence.

Gutherz—Look here, Zapfer, do you believe in the transmigration of souls? Zapfer—No. Do you? Gutherz—Most certainly I do, and I am thoroughly convinced that I was an ass at the time I lent you that ten pound note.—London Telegraph.

Postmortem.

Friend of the Family—Your rich old uncle died of softening of the brain, I hear. Ardluck (who got nothing)—Softening of your granny! He died of ossification of the heart.—Chicago Tribune.

Worked Out.

They were talking about futility and for some reason known only to each other failed to agree. Finally she asked:

"Well, now, suppose you give me an example of what you call futility."

"All right," said he. "Multiply 3,040 by 721."

She took a pencil in her hand, seized a piece of paper and after a few minutes of diligent figuring announced the result.

"It is 2,845,066," said she.

"Divide that by 2," he continued.

"It is 1,422,533," she said.

"Very well," said he. "Now add 7 to that and then subtract 1,422,540 and tell me what you get."

"The result is 0," said she after further figuring.

"Well, that's what I call futility," said he, with a laugh. "You've covered a sheet of paper with figures to arrive at nothing."

Whereupon she became so angry with him that she refused to argue any further on the subject.—London Sphere.

Got Acquainted.

Jones—I suppose you know more about that horse you got of Deacon Smith last week than when you made the trade? Brown—Yes, and I know a lot more about Deacon Smith now than I did then.

To Prospective Grapemen

"The dying of young vines which have never borne is, at least in part explained by the weakness due the use of cuttings taken from vines impoverished by over production. This emphasizes the necessity of careful choice of cuttings recommended in circular of 26 of this station."—Frederick T Bioletti of Berkeley in Pacific Rural Press, Oct, 27, 1906.

The above has proven true in my experience of 11 years in the vineyard business. A good strong butt cutting will produce a strong bearing vine. My vineyard being in Mendocino county and young vines. I have the cuttings you want at $2 per m. Varieties: Carrigan, Mataro, Zinfandel, and Mission. Address James H Cummiskey, box 134, Cloverdale, Calif.
